

CRELUX, part of WuXi AppTec's Research Service Division, is a global provider of structure based drug discovery solutions.

We have been delivering customized and integrated services in drug discovery, X-ray crystallography, protein supply, biophysical analysis and fragment screening, to support small and large molecule, as well as biopharmaceutical drug discovery, for more than a decade. Our mission is to enable our clients to perform their work faster, more efficiently and more successfully. Integrating the comprehensive portfolio of services offered by our parent company WuXi AppTec, CRELUX offers a unique opportunity for our collaborators to accelerate discovery activities.

Role

A new opportunity has arisen for a Research Associate (experienced technician, BSc or MSc (m/f/d)) to join our growing X-ray crystallography team in Munich, Germany. In close collaboration with the various departments at Crelux, we work on structural biology projects covering a wide variety of target classes to support our clients' diverse research projects.

Responsibilities

You will work independently and as part of a team within the scope of our projects and ensure the high quality of our research services. Your tasks include, among others:

- Characterization and crystallization of protein-ligand complexes of both established and new targets
- Mounting and testing of crystals at our in-house X-ray source as well as organization of synchrotron trips
- Careful documentation and evaluation of scientific protocols and experimental results
- Maintenance of the crystallization facility (liquid handling robots, crystallization plate hotels)
- Research of scientific literature relevant to the project

Required Skills

- Experienced technician, BSc or MSc in Biology, Biochemistry, Chemistry or a related subject
- A background in a relevant area such as structural or molecular biology, protein purification, biochemistry or biophysics
- Experience in protein crystallization and with commonly used liquid handling robots would be a significant advantage
- Team player with the ability to work and communicate efficiently in interdisciplinary teams in an international environment
- Ability to plan work in order to meet timelines
- Self-motivation and an interest in understanding and solving problems
- Good spoken and written German and (ideally) English

We offer

- A permanent contract of employment
- An exciting and wide-ranging job in an international and innovative environment
- A workplace in a brand-new building tailored to our needs
