

a WuXi AppTec company

As European representative of WuXi Biology, Crelux provides customized, early-stage drug discovery solutions. Our integrated services in protein production, structural biology, biophysics & screening, biochemical and cellular assays are all tailored to enable comprehensive drug discovery support.

At Crelux, we empower our clients to accelerate their research - helping them work faster, more efficiently, and focused on success. By integrating the comprehensive service portfolio of our parent company WuXi AppTec, we provide unique opportunities to streamline and advance discovery, from concept to candidate.

Research Associate – Biochemistry

We are seeking a Research Associate to join the Biochemistry team based in Munich, Germany. In close collaboration with the various departments at Crelux you will work on projects covering a wide variety of target classes and modalities.

Responsibilities

- ✂ Work independently and collaboratively as part of the Biochemistry team
- ✂ Perform and optimize biochemical assays, including HTRF/TR-FRET, luminescence-based assays, protein–protein interaction assays, and enzyme kinetics studies
- ✂ Develop, maintain, and revise standard operating procedures (SOPs)
- ✂ Document experimental data, support data analysis and interpretation, and contribute to result reporting and troubleshooting activities
- ✂ Maintain accurate and comprehensive records of experimental work in accordance with internal guidelines and quality standards
- ✂ Contribute to the development of new methods and assays and the continuous improvement of existing processes
- ✂ Identify, investigate, and resolve technical issues within the area of responsibility

Required Skills and Qualifications

- ✂ Bachelor's degree in Biology, Biochemistry, Biotechnology, or a related scientific discipline; alternatively, qualification as a laboratory technician (MTA, BTA, PTA, or equivalent), PhD not required.
- ✂ Hands-on laboratory experience in an industrial, CRO, or academic research environment
- ✂ Experience performing plate-based biochemical assays, such as HTRF/TR-FRET, luminescence-based assays, protein–protein interaction assays, and enzyme kinetics studies
- ✂ Strong organizational skills and attention to detail, with the ability to maintain accurate experimental records

- ✂ Fluency in written and spoken English is required; German language skills are preferred. Proficiency in Chinese would be an advantage
- ✂ Proficiency in Microsoft Office applications
- ✂ Demonstrated interest in adopting new technologies, methodologies, and laboratory techniques

We offer:

A contract (starting as soon as possible) with a competitive salary and the opportunity to work in a dynamic and innovative contract research environment. Access to eGYM Wellpass membership for personalized fitness and wellness plans.
