

Our Ready-to-Go Targets

trusted · reproducible · fast

KRAS

KRAS biophysical, biochemical and cellular characterisation

- ✓ SPR
- ✓ MST & Spectral Shift
- ✓ Nucleotide exchange
- ✓ nanoDSF
- ✓ Biochemical & cellular assays

Screening highlights

- Up to >100 T_m s and 900 K_D s/day (method dependent)
- 1-2 weeks turnaround time
- T_m , K_D , k_{on} , k_{off}
- small molecules
- PPI +/- compounds
- Ternary complexes
- In-lysate Spectral Shift

Off-the-shelf structures

- 1.3 Å resolution structures
- 2-4 weeks turnaround time
- Covalent and non-covalent ligand complexes
